The logistics industry plays a vital role in the dynamic economic landscape of India by enabling the efficient movement of goods and services throughout the country's large territory. As India strives to realise its ambitious economic goals, efficient management of its logistics sector emerges as a pressing imperative. Given its pivotal role in supporting various industries, from manufacturing to agriculture and e-commerce, the logistics sector faces a myriad of challenges, and offers a number of opportunities. The Indian logistics sector is one of the largest in the world and presents a huge addressable opportunity. The sector is critical for the country's economic growth as it connects various elements of the economy and consists of transportation, warehousing and other supply chain solutions ranging from suppliers to end customers.

INDUSTRY OVERVIEW & TRENDS

GLOBAL ECONOMY

The global economy remained resilient in FY 2024–25 despite disruptions from geopolitical conflicts, the Red Sea crisis, and tariff impositions. Global growth was steady at 2.7%, while India grew at 6.7% (World Bank). Inflation moderated globally, easing from 6.8% in 2023 to 5.9% in 2024, and is projected to decline further to 4.5% in 2025 (IMF). While advanced economies are stabilising, emerging markets continue to face higher inflation and weaker investment flows.

Geopolitical tensions, supply chain disruptions, and climate risks continue to challenge global trade. However, these shifts present opportunities for emerging economies like India to expand their global trade share.

OVERVIEW OF THE INDIAN ECONOMY

India continues to be the fastest-growing major economy, with GDP growth of 6.2%–6.5% projected for FY 2024–25 and FY 2025–26 (IMF). Growth is supported by strong domestic demand, government-led infrastructure investment, and recovery in agriculture. Inflation eased significantly, with CPI averaging 4.6% in FY 2024–25, down from 5.4% in FY 2023–24. WPI also declined, reflecting softer fuel and food prices. The RBI cut the repo rate to 6% in early 2025, supporting liquidity and consumption.

High-frequency indicators such as GST collections (₹22.09 lakh crore, up 9.4%) confirm robust economic activity. Large-scale expansion of highways and railways further strengthened connectivity and employment generation. Overall, India remains a key growth engine of the global economy, with continued focus required on reforms in skilling, MSME promotion, and energy security to sustain long-term momentum.

OVERVIEW OF THE INDIAN INDUSTRY

Indian Logistics Sector

The Indian logistics industry reached USD 228.4 billion in 2024 and is projected to touch USD 357.3 billion by 2030, at a CAGR of 7.7% (2025–30). Transportation remains the largest revenue segment, while warehousing and distribution are growing the fastest. This growth is supported by major government initiatives such as the National Logistics Policy, PM Gati Shakti, Logistics Efficiency Enhancement Programme (LEEP), Dedicated Freight Corridors, Sagarmala, and Bharatmala, aimed at reducing logistics costs and improving multimodal connectivity. Despite road transport handling nearly 70% of goods, policy reforms are steadily driving efficiency and lowering costs.

India's Infrastructure Sector

Infrastructure continues to be a cornerstone of India's growth strategy. The Union Budget FY 2025–26 allocated ₹11.2 lakh crore for capital expenditure, with a strong focus on highways, railways, and urban development. Key initiatives include accelerated highway construction, private sector participation, and urban programmes like the Jal Jeevan Mission, Urban Challenge Fund, and the revised UDAN scheme. These investments are expected to enhance connectivity, boost employment, and strengthen the logistics ecosystem.

India's EXIM Trade

India's merchandise exports stood at USD 437.1 billion, while imports reached USD 677.2 billion in FY 2024–25. Export growth was subdued due to lower petroleum realisation, though non-POL exports are expected to drive growth in FY 2025–26. Imports rose by over 6%, led by crude oil and electronic goods, while gold imports are projected to soften. India's key exports include engineering goods, petroleum products, gems and jewellery, and pharmaceuticals; imports are dominated by crude oil, electronics, gold, and machinery. As per WTO, India's share in global merchandise trade stands at 2.2% in exports and 3.4% in imports.

Indian Ports Sector

Ports remain vital to trade, handling about 95% of India's trade volume and 70% by value. In FY 2024–25, Indian ports collectively managed 1,593 MMT of cargo, up 4% year-on-year. Major ports handled 854 MMT (+4.4%), while non-major ports managed 739 MMT (+2.6%). Supported by the Sagarmala Programme, mechanisation, and the landlord port model under PPP, efficiency and capacity are improving. The sector benefits from 100% FDI under the automatic route and tax incentives, with six new mega ports planned under the National Perspective Plan.

**“Annexure B” to the Independent Auditor’s Report of even date on the
Financial Statements of Paradeep Parivahan Limited (Formerly known as
PARADEEP PARIVAHAN PRIVATE LIMITED)**

[Referred to in paragraph 2 (i) under ‘Report on other legal and regulatory requirements’ in the independent auditor’s report of even date, to the members of the company on the standalone financial statements for the year ended 31st March 2025]

(Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”))

We have audited the internal financial controls over financial reporting of **Paradeep Parivahan Limited** (“the Company”) as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether

adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that;

- 1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- 2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- 3) Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

36. Key Ratios

| Particulars | For the year ended 31 March, 2025 | For the year ended 31 March, 2024 |
|----------------------------------|--------------------------------------|--------------------------------------|
| Current Ratio | 2.37 | 1.78 |
| Debt-Equity Ratio, | 0.59 | 0.76 |
| Debt Service Coverage Ratio | 2.08 | 1.68 |
| Return on Equity Ratio | 25.48% | 30.38% |
| Trade Receivables turnover ratio | 4.87 | 4.68 |
| Trade payables turnover ratio | 19.88 | 9.63 |

| Net profit ratio | 7.20% | 6.92% |
| Return on Capital employed | 17.65% | 25.81% |

Note: Return on Investment (ROI) is Nil (Except FD)

Methodology:

1. Current Ratio = Current Asset / Current Liability
 2. Debt-Equity Ratio = Total Debt / (Shareholder's Equity)
 3. Debt Service Coverage Ratio = Earnings Available for Debt Service/ Finance Cost + Instalment paid
 4. Return on Equity Ratio = Profit After Tax /Average Equity
 5. Inventory Turnover Ratio = Sale / Inventory
 6. Trade Receivable Turnover Ratio = Revenue from Operations / Average Trade Receivable
 7. Trade Payable Turnover Ratio = Total Purchases + other expenses relating to Trade Payable /Closing Trade Creditors
- Note: When the information about credit purchases, opening and closing balances of trade creditors is not available then the ratio is calculated by dividing total purchases by the closing balance of trade creditors.
8. Net Capital Turnover Ratio = Revenue from Operations /Average working capital
 9. Net Profit Ratio = Profit After Tax / Revenue
 10. Return on Capital Employed= EBIT/ Capital Employed
 11. Capital Employed=Tangible Net Worth+Total Debt Deferred Tax Liability
 12. Earning for Debt Service = Net Profit before taxes + Non-cash operating expenses like depreciation and other amortizations + Interest + other adjustments like loss on sale of Fixed assets etc.

Reason of Variance in Ratio having more than 25% as compared to the Previous year

- i. Current Ratio increased mainly due to increase in trade receivable and Bank balance.
- ii. Trade Payable Turnover Ratio increase primarily due to increase in Cost of purchase.
- iii. The Net capital Turnover ratio decreased due to issue of Share capital in late March of the year which remain unutilized till the year end.
- iv. The Return on Capital employed decreased due to issue of Share capital in late March of the year which remain unutilized till the year end.
